LIMITED PRODUCT WARRANTY (APPLIES TO DOMESTIC SALES ONLY)

CAPCOM® COIN-OP, INC. (Seller), warrants only to the initial purchaser of its products, that the items listed below are free from defects in material and workmanship under normal use and service for the warranty periods specified:

A. CPS II System Cartridges	One (1) Year
B. Electronic and Mechanical Components:	(90) days

No other part of Seller's products are warranted.

Warranty periods are effective from the initial date of shipment from seller to its authorized distributors.

Seller's sole liability shall be, at its option, to repair or replace products which are returned to Seller during the warranty periods specified, provided:

- A. Seller is notified promptly upon discovery by buyer that stated products are defective;
- B. Such products are properly packaged and then returned, prepaid to Seller's designated plant.

This warranty does not apply to any parts damaged during shipment or handling, or due to improper

installation or usage, or alteration. In no event shall Seller be liable for any anticipated profits, loss of profits, loss of use, incidental or consequential damages or any other losses incurred by the customer in connection with the purchase of a CAPCOM® COIN-OP, INC. product.

WARRANTY DISCLAIMER

EXCEPT AS SPECIFICALLY PROVIDED IN A WRITTEN CONTRACT BETWEEN SELLER AND PURCHASER, THERE ARE NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IMPORTANT NOTICE

THIS SHIPMENT HAS BEEN CAREFULLY INSPECTED AND PROPERLY PACKAGED BEFORE LEAVING THE FACTORY. WE CANNOT ASSUME RESPONSIBILITY FOR BREAKAGE THAT MAY OCCUR DURING TRANSPORTATION OF THE GAME.

IF THIS GAME IS DAMAGED UPON RECEIPT FROM THE CARRIER, IMMEDIATELY NOTIFY THE CARRIER AND FILE A DAMAGE REPORT.

KIT INSPECTION

There are two kits available for conversion to **STREET FIGHTER ALPHA3™**:

1) TSFA1000 ("FULL" kit) contains the complete game cartridges, all necessary graphics, and replacement joysticks and button switches. The "FULL" kit is intended for conversion of most JAMMA-compatible, horizontal screen cabinets.

2) TSFA 1000B ("B" kit) contains the game software cartridge (B-cartridge) and must also be installed to a current CAPCOM® System II game. It includes all the necessary game graphics for a cabinet conversion (marquee, control panel overlay, monitor card, etc.).

Check that all parts have been shipped with your kit.
If any parts are missing, contact your distributor immediately.

KIT PARTS LIST

TSFA1000	TSFA1000B	PART NO.	DESCRIPTION	QTY
✓		TSFA1400	CPS II System Cartridges (A/B)	1
	✓	TSFA1400B	CPS II System Cartridge (B)	1
✓	✓	GE1200	Monitor Card	1
✓	✓	TSFA1110	Marquee	1
✓	✓	AW00216	Overlay, Control Panel	1
✓	✓	AW00245-2	Decal, Joystick & Button Switches	1
✓	✓	TSFA2520-01	Decal - Top, Instruction	1

✓		16-00136	Switch, Button (Green)	4
✓		03-0052	Cable, Auxiliary Volume/Test	1
✓		13-0066	Bracket, A-Cartridge Mounting	4

Note: Because of availability, your kit may contain different color of push-buttons.

CAUTION

Please read the following instructions to keep the PC board in good condition:

- ◆ Do not block the ventilation slots.
- ◆ Do not drop or bump the board.
- ◆ Do not spill any liquids on the case.
- ◆ Do not disassemble the case.

ATTENTION

The product that you have purchased contains a recyclable battery. At the end of its useful life, under various state and local laws, it may be illegal to dispose of this battery into the municipal waste system. Check with your local solid waste official for details in your area for recycling options or proper disposal.

**DISASSEMBLING THE CASE OR REMOVING
THE STICKER MAY CAUSE THE TERMINATION
OF YOUR REPAIR WARRANTY.**

KIT INSTALLATION

WARNING:

MAKE SURE ELECTRICAL POWER TO THE GAME IS OFF BEFORE STARTING THE KIT INSTALLATION.

PREPARATION

1. Disconnect and remove the old printed circuit board(s) from the cabinet.
2. Remove or open the control panel, and disconnect and remove the buttons and joystick(s) from the control panel.
3. Remove any covering from the control panel overlay, and then remove the control panel overlay.
4. Place the drill hole template over the control panel to determine where any new holes should go. Center punch any needed new holes on the control panel.
5. Cut out the new holes using a 1-3/16" hole saw.
6. If there is an additional control panel cover, figure 1 (such as plastic or lexan) that will be utilized, cut any additional holes using the same template. *cover is not included in the kit.
7. Plug up unused holes with a wood dowel (1-1/8" diameter) and sand any rough edges.

INSTALLATION

Marquee Installation

8. Remove the marquee plexi glass, marquee overlay, and the cabinet graphics.

9. Install the new marquee and replace the plexi glass. Clear plexi glass is included in "full" kit.

Control Panel Overlay Installation (See Figure 1)

10. The control panel overlay in the kit is oversized to accommodate most control panel sizes. Center the overlay on the control panel, leaving some excess material at the edges.
11. Remove the protective backing from the overlay and press it down on the control panel, keeping it properly aligned. Press it down firmly, smooth out any bubbles, and press it over the edges.
12. Trim any excess from the overlay. Place the drill hole template on top of the overlay, aligning it with the joystick holes. Pierce through the overlay at each control panel hole. Then, cut away overlay material covering the joystick and button holes. Remove the template and clean off the overlay.

13. Peel off the backings of the 6-button and joystick decals, align over the control panel holes, and press in place on the overlay (refer to the drill hole template for proper placement). Using a knife, trim material from the center hole of the joystick decal.

14. Install the control panel cover, figure 1. (if required).

Figure 1: Overlay Installation

CABINET DECAL INSTALLATION

19. Remove monitor glass and install monitor card
20. Peel-off the backing to the instruction decals and place on both the top and bottom of the monitor card. (See Figure 5). Also, apply the cabinet decals to both sides of the cabinet.

Figure 5: Cabinet Decal Installation

Re-assembly of Components

15. Notice that there are two white buttons. See figure 2. The WHITE buttons are START buttons. Install the PLAYER ONE button on the top left-hand side of the control panel, and the player two button on the top right-side of the control panel.

Figure 2: Start Buttons

Figure 3: Control Panel Buttons and Switches

16. Install all buttons and retaining rings on the control panel as shown in Figure 3. Install two red buttons to the immediate right of each joystick, install two green buttons to the right of the red ones, and install two blue buttons to the right of the green ones.

17. Install the switches on the buttons as shown in figure 3. Orient the switches so that when a button is pressed, the plastic contact on the switch is depressed.

18. Install the joysticks on the control panel as shown in figure 4.

Figure 4: Joystick Installation

CONTROL PANEL WIRING

NOTE: all switch wires used in this game must be wired to the normally-open connection on the switches. Each switch requires a ground wire on the common connector and the appropriate control or switch wire on the normally-open connector of the switch.

21. Reconnect the existing JAMMA connectors to the control panel according to the chart in table 1.

22. Connect the player 1 and the player 2 kick buttons to the auxiliary cable harness as shown in figure 6. Make the connections according to the chart in table 2.

Figure 6: Auxiliary Cable Harness

TEST SWITCH WIRING

23. Your cabinet may already equipped test switch. An optional test/volume bracket (see Figure 7) is available through your local CAPCOM distributor (part number 03-0050). When installing, the test switch bracket should be mounted inside the coin door and on top of the cash box for easy access. (See Page 7 for wiring detail)

NOTE: only the test switch is used for this game; the volume up/down switches are disabled.

Volume adjustments must be made through the volume control knob located on the PC board.

Figure 7: Test Switch Bracket

24. If you are converting a cabinet that is equipped with CAPCOM® Q-SOUND, you may use stereo audio output connect to existing Q-SOUND POWER AMPLIFIER.

CAUTION

IMPROPER INSTALLATION OF THE JAMMA HARNESS TO THE GAME CARTRIDGE WILL CAUSE DAMAGE TO THE ENCLOSED PCB.

WARNING

DISASSEMBLY OF EITHER GAME CARTRIDGE WILL VOID YOUR WARRANTY.

GAME CARTRIDGE INSTALLATION

“FULL” KIT

20. Install the four (4) mounting brackets to the underside of the “A” cartridge as shown in Figure 10.

Figure 10: Mounting Bracket Installation

21. Using the wood screws (Not Supplied), fasten the game cartridge case to the control panel shelf, as shown in Figure 11.

Figure 11: Case Mounting

22. Connect the JAMMA harness connector and the auxiliary cable connector to the “A” cartridge. If your cabinet is equipped with Q-SOUND, also attach the audio cables.

“B” KIT

15. To remove the existing “B” cartridge from the “A” cartridge, pull the old case clamps apart (see Figure 12). Carefully remove the old “B” cartridge and install the new “B” cartridge. Re-install the case clamps.

Figure 12 : Case Clamp Installation

23. Power-up the game and set all operator adjustable options by pressing the TEST switch. Follow the instructions under the *TEST MENU* section of this manual.

TEST MENU

The test menu allows you to test the functions and configure the game. These items include input devices such as joysticks, buttons and coin door or switches, output devices such as monitor, speakers and meters. Through the Test Menu you can also access the Configuration Menu, where you can change the settings of the game.

4. TEST MENU ITEM DESCRIPTIONS

INPUT	Used to test all the input switches, such as joysticks and buttons. The "0" changes to a "1" as the button is pushed or joystick is moved. Check connections and switches in case the "0" doesn't change to a "1" when depressed or moved.
OUTPUT	Used to test the coin meter and the coin lock.
SOUND & VOICE	Select a code of SOUND or VOICE with the PLAYER 1 JOYSTICK . Push the PLAYER 1 SHOT 1 button to hear the sound of the selected code.
COLOR	Shows color bars of red, green, blue, and white. Adjust RGB and brightness to obtain the optimum color balance and solid black background.
DOT CROSS HATCH	Used to test the screen size, focus and distortion.
GAME DATA	Coin meter, Free Game and Free play information will be displayed.
CONFIGURATION	Used to change the game play settings. Refer to the CONFIGURATION MENU section.
MEMORY CHECK	Used to test memory. "OK" appears when each block of memory passes test, "NG" appears in case of malfunction. If "NG" appears, repeat the memory test and wait for the "OK" message. Contact your distributor if "NG" still appears.
EXIT	Select this item and push the PLAYER 1 SHOT 1 button to return to game play mode.

CONFIGURATION MENU

The Configuration Menu is used to change various game settings such as level difficulty, credits, sound configuration, etc. These settings are stored in memory on the PCB.

The Configuration Menu is divided into 2 sections. In the **SYSTEM** section, you can change credits, sound, and coin door configurations. In the **GAME** section, you can change the play difficulty level and duration of the game.

7. CONFIGURATION MENU

- > 1. SYSTEM
- 2. GAME
- 3. DEFAULT
- 4. SAVE & EXIT

SELECT = 1P UP OR DOWN
START = 1P SHOT1

1. ACCESSING THE CONFIGURATION MENU

- From the TEST MENU, move the arrow to “7. CONFIGURATION” and push the *PLAYER 1 SHOT 1* button. The screen left will be displayed. A description of each option is explained in the table below.

5. CONFIGURATION MENU ITEM DESCRIPTIONS

SYSTEM	Select this item to change settings for credits, monitor flip, sound and coin door configurations.
GAME	Select this item to change difficulty level, damage level, time count speed, maximum number of rounds and event type.
DEFAULT	Use this item to restore configuration settings to the original factory values. Press the <i>PLAYER 1 SHOT 1</i> and <i>PLAYER 1 SHOT 2</i> buttons at the same time to restore default values.
SAVE & EXIT	Use this to save new configuration settings and exit to the Test Menu. The message “SAVING NEW CONFIGURATION IN EE-PROM” will appear while the new settings are being saved. DO NOT turn power off to the game until “SAVING” is complete and the Test Menu reappears.
